

CONTENTS

W. Cholewa: Network knowledge bases for technical diagnostics	7
J. Dobrodziej: Multipurpose computer platform supporting the transfer of innovations to business practice	15
J. Dobrodziej, A. Mazurkiewicz, A. Zbrowski: Quality testing model for unit prototype technological devices.....	29
A. Mazurkiewicz, B. Poteralska: System conditions supporting the development and commercialisation of innovative technological solutions	45
J. Kiciński: New method of state analysis and diagnostics of power micro-devices	57
I. Komorska: Model of the Vibration Signal of the Vehicle Drive System as a Diagnostic Tool.....	71
T. Giesko: Designing opto-mechatronic systems for fatigue process Monitoring.....	87
P. Drożyner: Determining the limits of piping vibration.....	97
G. Klekot: The measure of the propagation of vibration for the assessment of damages in a concrete beam	105
D. Nowak: National innovation systems creation – evidence from Israel	113
